# National Management Measures to Control Nonpoint Source Pollution from Forestry

# Draft February 2001

Prepared for

Chris Solloway
Nonpoint Source Control Branch
Office of Water, U.S. Environmental Protection Agency

by

Tetra Tech, Inc. Fairfax, Virginia

U.S. EPA Contract No. 68-C7-0014 Work Assignment # 2-20

Chapter 1: Introduction The Purpose and Scope of This Chapter What is Nonpoint Source Pollution Efforts to Control Nonpoint Source Pollution Coastal Nonpoint Pollution Control Program Nonpoint Source Program—Section 319 of the Clean Water Act National Estuary Program Section 404 of the Clean Water Act	. 1-1 . 1-3 . 1-4 . 1-5 . 1-6 . 1-6
Total Maximum Daily Load—Clean Water Act Section 303	
Chapter 2: Overview Forested Watershed Hydrology Forestry Activities and Forest Hydrology Road Construction and Use Timber Harvesting Site Preparation and Forest Regeneration Prescribed Burning Forest Chemical Applications Forestry Pollutants and Water Quality Effects Sediment Temperature Streamflow Organic Debris Nutrients	. 2-1 . 2-3 . 2-4 . 2-6 . 2-7 . 2-8 . 2-9 . 2-9 . 2-11 2-12 2-12
Physical Barriers Forest Chemicals Cumulative Effects  Mechanisms to Control Silvicultural Nonpoint Source Pollution Management Measures Best Management Practices (BMPs) Best Management Practice Systems  Management Measure Effectiveness Examples  State and Private Forestry Programs Education and Training Cooperative Forestry Programs Sustainable Forestry Initiative The Society of American Foresters' Certified Forester® Program Effectiveness of Education and Technical Assistance Cost Estimates for Forest Practice Implementation	2-14 2-16 2-19 2-19 2-20 2-21 2-22 2-23 2-24 2-24 2-25 2-31 2-31 2-32
Chapter 3: Management Measures Scope of This Chapter 3A: Preharvest Planning Management Measure Description Benefits of Preharvest Planning Best Management Practices Harvest Planning Practices Road System Planning Practices Preharvest Notification Practices 3B: Streamside Management Areas Management Measure Description	. 3-1 . 3-3 . 3-4 . 3-8 . 3-9 . 3-10 3-18 3-19

i

Benefits of Streamside Management Areas	3-20
Best Management Practices	3-26
3C: Road Construction/Reconstruction	3-28
Management Measure Description	
General Road Construction Considerations	3-28
Road Surface Shape and Composition	3-32
Slope Stabilization	
Road Construction and Fish Habitat	
Stream Crossings and Fish Passage	
Wetland Road Considerations	
Benefits of Road Construction Practices	
Road Construction and Stream Crossing BMP Costs	
Best Management Practices	
Road Surface Construction Practices	2_/11
Road Surface Drainage Practices	
Road Slope Stabilization Practices	
Stream Crossing Practices	
Fish Passage Practices	
3D: Road Management	
Management Measure Description	
Road Reconstruction	
Road Decommissioning	
Benefits of Road Management	
Best Management Practices	3-62
Road Maintenance Practices	
Wet and Winter Road Practices	
Stream Crossing and Drainage Structure Practices	3-65
Road Closure and Decommissioning Practices	3-66
Road Closure and Decommissioning Practices	3-66
Road Closure and Decommissioning Practices	3-66 3-70
Road Closure and Decommissioning Practices	3-66 3-70 3-70
Road Closure and Decommissioning Practices	3-66 3-70 3-70 3-74
Road Closure and Decommissioning Practices	3-66 3-70 3-70 3-74 3-75
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices	3-66 3-70 3-70 3-74 3-75 3-75
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings	3-66 3-70 3-70 3-74 3-75 3-75 3-76
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices  Other Yarding Methods	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78 3-79
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices  Other Yarding Methods  Winter Harvesting	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78 3-79 3-81
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices  Other Yarding Methods  Winter Harvesting  Petroleum Management Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78 3-79 3-81 3-82
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices  Other Yarding Methods  Winter Harvesting  Petroleum Management Practices  3F: Site Preparation and Forest Regeneration	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78 3-79 3-81 3-82 3-84
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices  Other Yarding Methods  Winter Harvesting  Petroleum Management Practices  3F: Site Preparation and Forest Regeneration  Management Measure Description	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78 3-81 3-82 3-84 3-84
Road Closure and Decommissioning Practices  3E: Timber Harvesting  Management Measure Description  Benefits of Timber Harvesting Practices  Best Management Practices  Harvesting Practices  Practices for Landings  Ground Skidding Practices  Cable Yarding Practices  Other Yarding Methods  Winter Harvesting  Petroleum Management Practices  3F: Site Preparation and Forest Regeneration  Management Measure Description  Mechanical Site Preparation in Wetlands	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-82 3-84 3-84 3-88
Road Closure and Decommissioning Practices  3E: Timber Harvesting Management Measure Description Benefits of Timber Harvesting Practices Best Management Practices Harvesting Practices Practices for Landings Ground Skidding Practices Cable Yarding Practices Other Yarding Methods Winter Harvesting Petroleum Management Practices 3F: Site Preparation and Forest Regeneration Management Measure Description Mechanical Site Preparation in Wetlands Benefits of Site Preparation Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-78 3-81 3-82 3-84 3-84 3-88 3-88
Road Closure and Decommissioning Practices 3E: Timber Harvesting Management Measure Description Benefits of Timber Harvesting Practices Best Management Practices Harvesting Practices Practices for Landings Ground Skidding Practices Cable Yarding Practices Other Yarding Methods Winter Harvesting Petroleum Management Practices 3F: Site Preparation and Forest Regeneration Management Measure Description Mechanical Site Preparation in Wetlands Benefits of Site Preparation Practices Best Management Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-81 3-82 3-84 3-88 3-88 3-88 3-89
Road Closure and Decommissioning Practices  3E: Timber Harvesting Management Measure Description Benefits of Timber Harvesting Practices Best Management Practices Harvesting Practices Practices for Landings Ground Skidding Practices Cable Yarding Practices Other Yarding Methods Winter Harvesting Petroleum Management Practices  3F: Site Preparation and Forest Regeneration Management Measure Description Mechanical Site Preparation in Wetlands Benefits of Site Preparation Practices Best Management Practices Site Preparation Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-81 3-82 3-84 3-84 3-88 3-89 3-89
Road Closure and Decommissioning Practices  3E: Timber Harvesting Management Measure Description Benefits of Timber Harvesting Practices Best Management Practices Harvesting Practices Practices for Landings Ground Skidding Practices Cable Yarding Practices Other Yarding Methods Winter Harvesting Petroleum Management Practices 3F: Site Preparation and Forest Regeneration Management Measure Description Mechanical Site Preparation in Wetlands Benefits of Site Preparation Practices Site Preparation Practices Site Preparation Practices Forest Regeneration Practices	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-81 3-82 3-84 3-88 3-88 3-89 3-90
Road Closure and Decommissioning Practices  3E: Timber Harvesting Management Measure Description Benefits of Timber Harvesting Practices Best Management Practices Harvesting Practices Practices for Landings Ground Skidding Practices Cable Yarding Practices Other Yarding Methods Winter Harvesting Petroleum Management Practices 3F: Site Preparation and Forest Regeneration Management Measure Description Mechanical Site Preparation in Wetlands Benefits of Site Preparation Practices Best Management Practices Site Preparation Practices Forest Regeneration Practices Forest Regeneration Practices Sig: Fire Management	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-81 3-82 3-84 3-88 3-89 3-89 3-90 3-91
Road Closure and Decommissioning Practices 3E: Timber Harvesting Management Measure Description Benefits of Timber Harvesting Practices Best Management Practices Harvesting Practices Practices for Landings Ground Skidding Practices Cable Yarding Practices Other Yarding Methods Winter Harvesting Petroleum Management Practices 3F: Site Preparation and Forest Regeneration Management Measure Description Mechanical Site Preparation in Wetlands Benefits of Site Preparation Practices Site Preparation Practices Site Preparation Practices Forest Regeneration Practices Forest Regeneration Practices Site Preparation Practices Forest Regeneration Practices Forest Regeneration Practices Site Fire Management Management Measure Description	3-66 3-70 3-74 3-75 3-75 3-76 3-77 3-81 3-82 3-84 3-88 3-88 3-89 3-90 3-91 3-91
